Overall Rating

Excellent

Very Good

Good

CMOS Design

- You have many skills as a professional should have.
- You can be a thrill personality to work with and holds a wide range of skills.

Computer Networks

- Focus on your goal. Don't look in any direction but ahead.
- You are well talented in your core skills

Control Systems

- You possess many skills that an ordinary engineer doesnt think of.
- Technically savvy and explain technical terms until the practitioner understands it well.

Digital Signal Processing

- Technically savvy and explain technical terms until the practitioner understands it well.
- You can be an eager engineer who is willing to take on any new challenge.

Digital System Design

- Even the greatest were beginners. Don't be afraid to take that first step.
- You are well talented in your core skills

Electronic Devices

- A little progress each day adds up to big results
- It's not about perfect. It's about effort.

Information Theory and Coding

★★★★★

- You are an outstanding engineer with rich innovations
- You can be a highly proficient and a worthy engineer.

Microcontrollers

★★★★★

- You can be a capable and skilled engineer.
- Highly skilled professional.

3D Printing and Design

★★★★★

- You can be an exceptional and a great engineer.
- You are knowledgeable in both the creating and engineering.

Augmented Reality (AR)/ Virtual Reality (VR)

★★★★★

- You can be an eager engineer who is willing to take on any new challenge.
- Strong technical skills to create a powerful package.

Cyber Security

★★★★★

- You are a bright, able and an adept engineer.
- A little progress each day adds up to big results

Robotics

★★★★★

- It's not about perfect. It's about effort.
- Even the greatest were beginners. Don't be afraid to take that first step.

Maths

★★★★★

- You can be a hardworking engineer with the right attitude for project engineering.
- You are desperate to learn and experience with hand- on - hand at latest technologies.

Power Electronics

★★★★★

- You are a bright, able and an adept engineer.
- Focus on your goal. Don't look in any direction but ahead.

Artificial Intelligence/ Machine Learning

★★★★★

- Feasible and valuable engineer.
- Professional and result oriented.

Blockchain

★★★★★

- An innovative and quick-witted engineer.
- You can be One of the best engineers in our industry.

Internet of Things (IoT)

★★★★★

- You can be a hardworking engineer with the right attitude for project engineering.
- Your skill and ability as an engineer can be astounding.

General Knowledge Aptitude

★★★★★

- A little progress each day adds up to big results
- Losers quit when they're tired. Winners quit when they've won.

Integrity Aptitude

- You have an outstanding business and work ethics.
- You are an extremely positive person and have a great work ethic.

Physical Aptitude

- You are self motivated and volunteer for assignments that are challenging and/or time constrained.
- You have flair for taking out time from your personal schedule to carry out responsibilities.

Spiritual Aptitude

- You always find ways to solve the engineering issues faced by the society and environment.
- Your thoughts about helping and serving others are genuine and from the bottom of your heart as you

Mental Aptitude

- You are good at understanding of non-verbal reasoning questions.
- You have the capacity to learn and develop new and innovative perspectives of a problem.
